

Local Authority Governor

James Rene

I have been the Local Authority Governor on the body since January 2016. I am also Vice-Chair of the Resources Sub-Committee.

I live locally to the school in Perry Vale and I'm generally keen on being active within the local community.

I am a chartered building services engineer, and through my profession I work on many building projects and contracts including school premises.

Having been invited to get involved with Brent Knoll School, I thought it would be the perfect opportunity to make a contribution with my skills in particular in making the most with our new building.

I especially enjoy attending the Achievements Assemblies, to witness and celebrate the accomplishments and joy of our brilliant students.

I hope to continue to share and enjoy our successes and above all the vital service we provide to our students and the community.

Term End Date: 26/9/2020
