

Foundation Governor

Laura Deitz

I am excited about the opportunity to serve on the Governing Body at Brent Knoll School. My eldest daughter Lily joined Brent Knoll in January of 2018 and is now in Birch Class.

Since Lily's diagnosis of ASD when she was 2 years old, I have been active in volunteering with charities and community organizations supporting and empowering parents and carers of children with ASD. In the United Arab Emirates where the Deitz family recently lived, I worked directly with the government to ensure that children with SEN could access and get support in schools.

I work in Finance and have two other young daughters. The Deitz family is grateful Lily has the opportunity to learn and grow in a school with educators and leaders who are passionate about supporting children like Lily. As Governor, I want to ensure that parents and carers have the support they need and that the curriculum at Brent Knoll best enables all children to achieve their full potential.
